

## Bath Planner

### Planner

List things that you do not like about your existing bathroom:

---

---

---

List things you like in bathrooms of friends and relatives:

---

---

---

Collect photos from magazines, internet, or newspapers of features you like.

---

---

---

Are there any special features you want in the bathroom (i.e. Jacuzzi tub, soaking tub, lighting, extra shower heads, bidet, window, etc.)?

---

---

---

Do you have a preference for countertop material?

---

---

---

How much cabinet storage space do you need?

---

---

---

### Tips:

Common mistakes that are made when remodeling a bathroom:

- Not having a large enough hot water supply for a Jacuzzi tub
- Using wall tile for flooring

- Incorrect water supply line size – some showerheads require a 1 inch line
- Making the tile pattern look too “busy” which makes the space feel smaller
- Inadequate ventilation

Trends:

- Spa bath
- Bidet
- Steam bath
- Sculptural sinks
- Clean simple lines for cabinets, handles, knobs, and overall feel
- Use of wood from “Green” sources
- Use of low VOC wood and finishes
