

Bath Planner

Planner

List things that you do not like about your existing bathroom:

List things you like in bathrooms of friends and relatives:

Collect photos from magazines, internet, or newspapers of features you like.

Are there any special features you want in the bathroom (i.e. Jacuzzi tub, soaking tub, lighting, extra shower heads, bidet, window, etc.)?

Do you have a preference for countertop material?

How much cabinet storage space do you need?

Tips:

Common mistakes that are made when remodeling a bathroom:

- Not having a large enough hot water supply for a Jacuzzi tub
- Using wall tile for flooring

- Incorrect water supply line size – some showerheads require a 1 inch line
- Making the tile pattern look too “busy” which makes the space feel smaller
- Inadequate ventilation

Trends:

- Spa bath
- Bidet
- Steam bath
- Sculptural sinks
- Clean simple lines for cabinets, handles, knobs, and overall feel
- Use of wood from “Green” sources
- Use of low VOC wood and finishes
